THE MEXICAN SITUATION

Washington, June 9.—Carranza's reply to the invitation to participate in mediation is expected to be sent to the A. B. C. envoys today. Constitutional representatives here admit that it accepts the invitation "on his own terms," and they wonder whether the reply will be satisfactory to the mediators.

Declares everything is now ready for the drafting of the protocol. U. S. commissioners have communicated a counter proposal to the mediators, which differs in several respects from the draft approved by Huerta, but the points of difference are not believed to be such that as to present any insurmountable obstacle.
